Summary

A widely skilled IT specialist with a manager and analytical experience. I can handle complicated tasks myself, helping a company to grow and reach its goals. Raised from IBM Lotus Domino developer to CIO of the Cultural centre.

I'm looking for new experience outside Russia. I can help you with product and project management, HCL (IBM) (Lotus) Domino development/administration, CCTV, ServiceDesk (ITIL) and monitoring.

Open-minded, friendly and curious.

Experience

Senior manager

2017 January - Present

Directorate on development of the cultural centers of Moscow *Moscow, Russia*

Hired as a full-stack IBM Domino Developer and a project manager for an automated informational system for cultural organizations of Moscow Culture Department.

Additional information

Some people can be scared because my experience and education are too wide. I think that when we work, we must use all the information from any sources. I respect any person and its professional skills and will be glad to learn something new, solve something unexpected and find new friends.

Interests and Hobbies

I have a base music education, playing guitar and piano.
Got a sports category in dancing (discofox D/RS) and a trainer certificate.

When travelling, I try to understand the country and nation with a clear mind.
